International Journal of Gas Processing is a pioneering scientific journal in field of Gas Engineering which has been approved by the Iranian Ministry of Science, Research and Technology as a Scientific Research Journal and is published in English language. GPJ is regularly published in four issues per annum in the form of a volume. Articles received are immediately processed adopting fastest method to arrive at the final decision regarding the publication of a paper. Our policy is to retain the processing time within two months in order to meet the author's expectations. Papers are indexed by Islamic World Science Citation Center (ISC).
