Journal of Stratigraphy and Sedimentology Researches

License Holder: University of Isfahan
Vol. 40, Issue 4, No. 97, Winter 2024
E-ISSN: 2423-8007

Publisher: University of Isfahan, Isfahan, Iran
Director-in-Charge: Ali Bahrami
Editor-in-Chief: Hossein Vaziri-Moghaddam
Associate Editor: Mohammadali Salehi

Journal Address:

University of Isfahan, Technology and Research Department, Journal of Stratigraphy and Sedimentology Researches Office, Isfahan, Iran.

Tel: +983137932175

Fax: +983137932177

e-mail: jssr@res.ui.ac.ir

Aims and Scope

The Journal of Stratigraphy and Sedimentology Researches of the University of Isfahan, welcomes to the following research topics:

- Biostratigraphy
- Sequence stratigraphy
- Microfacies
- Paleoecology
- Quaternary sediment engineering
- Sedimentology and environmental pollution
- Sedimentology and deposits
- Hydrogeology in relation to sedimentology and sedimentary geochemistry

Editorial Board

Naser Arzani	University of Payam Noor, Isfahan, Iran
Ali Bahrami	University of Isfahan, Isfahan, Iran
Maria Aleksandra Bitner	Roman Kozłowski Institute of Paleobiology of the Polish Academy of Sciences, Warsaw, Poland
Iliana Boncheva	Geological Institute, Bulgarian Academy of Science, Sofia, Bulgaria
Ezat Heydari	Jackson State University The institution will open in a new tab, Jackson, United States
Azizollah Taheri	Shahrood University, Shahrood, Iran
Asadollah Mahboubi	Ferdowsi University of Mashhad, Mashhad, Iran
Hossein Vaziri-Moghaddam	University of Isfahan, Isfahan, Iran
Mohammadali Salehi	University of Isfahan, Isfahan, Iran
Francisco Javier Vega	Universidad Nacional Autónoma de México, Mexico, Mexico
Mehdi Yazdi	University of Isfahan, Isfahan, Iran
Kamil Zagorsek	Technická Univerzita v Liberci, Liberec, Czech Republic

Guide for Authors

Thank you for choosing to submit your paper to us. Please take the time to read and follow the instructions as closely as possible, as doing so will ensure your paper matches the journal's requirements.

1. At the time of submission, the following files should be supplied.
 - **Manuscript:** This file should be anonymized, and the file name should also preserve your anonymity.
 - **Conflict of interest:** This file can be downloaded here and you are required to fill out this form.
 - **Publishing Agreement:** This file can be downloaded here and you are required to fill out this form.

The Journal of Stratigraphy and Sedimentology Researches of the University of Isfahan, welcomes to the following research topics:

- Biostratigraphy
- Sequence stratigraphy
- Microfacies
- Paleocology
- Quaternary sediment engineering
- Sedimentology and environmental pollution
- Sedimentology and deposits
- Hydrogeology in relation to sedimentology and sedimentary geochemistry

Please consider the followings before submitting the article:

1. The article should not be published earlier or submitted to other publisher simultaneously.
2. The formal language of the journal is Persian. However, English articles would be in consideration.
3. The text should reflect original research and reflects author(s) investigations.
4. Article provided by MSc. and PhD. students in cooperation with their supervisor and advisor, should be submitted by supervisor. Otherwise, it will not open to the editorial board
5. The article should arrange as follows:

First page:

- Full title of the article in Persian and in English, Name of the author(s) in Farsi and in English (the name of the corresponding author will be marked with an asterisk).
- Academic status and name of institution or place of employment of the author(s) in Persian and English.
- Full address of the author responsible for correspondence, including postal address, telephone number, fax number and E-mail address in Persian and in English. Please avoid using these specifications in other pages of the paper.
- If the financial expenses of the research or the preparation of the article are provided by an institution, or if the article is derived from a research project with the financial support of other institutions and organizations, it is necessary to obtain permission to print the results of the project or research from the appropriate institution and submit it to the journal office when submitting the article, and if requested by the institution, the name of that institution should be included in the footer of the first page.

Second page:

- Full title of the article in Persian.
- Abstract in Persian (maximum of 300 words),
- Key words (maximum of five words),

Third page (begin the whole body of the paper):

- Introduction, Methods, Main body, Discussion, Conclusion and List of references, preferably "in English
- References in the text: author(s) name and year of publication in parentheses (Wilson 1975; Flugel 2010; James and Wynd 1965).
- If you use more than one paper from author(s) published in the same year, add a, b, .after the year of that references.
- Use an English equivalent marked independently by number for each page footnotes.
- References list: Arrange references as; author's last name, first letter of the name, year of publication, title, journal name completely, volume number , pages (start and end). In the book, after the author's surname and first letter of the name and year of the book, the full name of the publisher, volume number, place of publication, and pages must be explained.

The method of referencing sources is based on the AAPG journal format of the American Association of Petroleum Geologists.

Example:

References

Book

One author:

- Flugel E. 2010. Microfacies of carbonate rocks. Springer, Berlin, 976 p.

Two or more authors:

- Allen P.A. and Allen J.R. 2005. Basin Analysis: Principles and Applications (2nd editions). Blackwell Publishing, Oxford, 549 p.

Scientific journal articles

One author:

- Owens R.M. 2004. Late Ordovician and Early Silurian Proetida (Trilobita) from north-western and central Europe. *Palaeontology*, 47(3): 557-578.

Two or more authors:

- Pittau P. Cotza F. and Del Rio M. 2003. Early Silurian siliceous sponge spicule assemblages from the Sardinia Hercynian Chain (Italy). *Bollettino della Società Paleontologica Italiana*, 42(3): 225-239.
- Pomar L. Mateu-Vicens G. Morsilli, M. and Brandano M. 2014. Carbonate ramp evolution during the Late Oligocene (Chattian), Salento Peninsula, southern Italy. *Palaeogeography Palaeoclimatology Palaeoecology* 404: 109-132.
- The article was published in the Conference Proceedings:
- Steinhauß D. M. and Walker K. R. 1996. Sequence stratigraphy of an apparently non-cyclic carbonate succession: recognizing subaerial exposure in a largely subtidal, Middle Ordovician stratigraphic sequence in eastern Tennessee. In: Witzke G. A. Ludvigson J. E. and Day B. J (Eds.), *Paleozoic Sequence Stratigraphy: Views from the North American Craton*, special paper, Geological Society of America, 87-115.

Dissertation:

- Kaiser S.I. 2005. Mass extinctions, climatic and oceanographic changes at the Devonian-Carboniferous boundary, PhD thesis, Ruhr-University Bochum, Germany, 156 p.

Internet resources:

Government website or organization:

6. In the text refer to number of charts, tables, notes and outline their approximate location.

7. Use 300 dpi quality for tables and figures and sent them in a separate files.

8. Submitted article would be sent to three anonymous reviewers.

9. The corresponding author is legally responsible for the scientific and accuracy of the article.

10. Translated texts are not acceptable.

11. The maximum volume of the paper, including tables and figures should not increase of 25 pages.

12. The journal reserves the right to accept, reject, edit and keeping the article.

13. Rejected or withdrawn article will remove from journal archives after three months and the journal has no responsibility in this regard.

Note 1: The journal is free to review, accept or reject the paper.

Contents

The development of mixed sequences in a marginal setting: example of the Late Albian–Cenomanian in Central Tunisia	1-22
Hajer Haj Ali; Syrine Bouaziz and Jamel Tourir	
The lower parts of the Oligo–Miocene Qom Formation in the Kegharaki (SE Jiroft) and Shurab (SE Qom) areas: biostratigraphy, microfacies, and depositional environments	23-40
Ebrahim Mohammadi and Reza Sadeghi	
First report of the bivalve <i>Placuna placenta</i> (Linnaeus, 1758) from the Late Miocene–Early Pliocene strata of the Minab region and Qeshm Island, Persian Gulf, Southern Iran: Palaeoecology, systematic and taphonomy	41-62
Fereshteh Mahdipour; Ali Bahrami; Mehdi Yazdi; Hossein Vaziri-Moghaddam; Aleksandra Bitner and Francisco Vega	
Organofacies heterogeneity of the Aptian–Albian source rock (Kazhdumi Formation) in selected oilfields from the Zagros Basin	63-74
Zahra Gholami; Majid Alipour and Amirhossein Ammari
